

Tour the Home

Covered drop-off at the front door. Ambulance, family car, or medical transport pulls up under the roof.

The common room sits between the kitchen and the suites, so staff can see most of the house from one spot.

Meals are cooked here and eaten together — three a day, plus snacks, at tables that get set.

Suites, care areas, and the porch

PHOTOGRAPHED
SEPTEMBER 2026

Every suite is private. Families bring the furniture that makes the room look like the last one.

Grab bars and a shower a person can get into with one-person assist.

Afternoons happen on the porch. Staff sit out there too — that is the supervision.

3D WALKTHROUGH
SCAN TO TOUR NOW

See it in person

Case managers and placement advisors are welcome any time we're open. Walk in, look at the suites, ask the staff anything. Can't get out here today? Scan the code and walk the whole building in 3D.
